All guest rooms of Saju hotel are built with the standard of a traditional tea room. The walls are built with soil and stone, and the ceiling and stairs are made with high quality wood. The smell of wood, stone and soil gives you the impression of nature.

茶住

The kanji 茶 “Sa” refers to tea, 住 “Ju” refers to living, which means “Living in a tea room”. The Japanese matcha tea ceremony represents harmony and peace. This is Saju Kyoto’s concept. May you find peace and harmony while relaxing in our traditional tea room-inspired, traditional-style hotel.
